PROFESSIONAL SUMMARY

UI/UX Designer with 1+ years of experience designing responsive web and mobile applications using Figma. Skilled in user journey mapping, wireframing, high-fidelity UI design, prototyping, usability evaluation, and competitive benchmarking. Experienced in collaborating with developers and product teams to create intuitive digital experiences across healthcare, HR management, hotel management, and e-commerce projects. Passionate about improving usability, maintaining design consistency, and delivering engaging user-centered interfaces.

PROFESSIONAL EXPERIENCE

Associate UI/UX Engineer

09/2025 – Present

TeachMelt Software Solutions 🔗

- Designed end-to-end user journeys, wireframes, and high-fidelity responsive interfaces for web and mobile applications.
- Conducted competitor analysis and usability reviews to identify opportunities for improving user experience and product positioning.
- Iterated UI designs rapidly based on stakeholder feedback, usability findings, and changing business requirements.
- Maintained reusable Figma components and contributed to design system consistency across multiple products.
- Collaborated closely with developers, product stakeholders, and project teams to ensure design feasibility and implementation accuracy.
- Utilized AI-powered tools to accelerate content generation, documentation, design exploration, and repetitive design tasks.

Intern UI/UX Engineer

08/2024 – 08/2025

TeachMelt Software Solutions 🔗

- Assisted in conducting competitor benchmarking and UX analysis to identify usability improvements.
- Supported creation and maintenance of reusable UI components within Figma.
- Participated in design reviews and iterative improvements based on stakeholder and user feedback.
- Worked closely with senior designers and developers to refine UI components and user flows.
- Contributed to responsive interface design for multiple web applications.
- Participated in usability evaluations and improved interface designs based on feedback.
- Assisted in preparing design assets for development handoff.

EDUCATION

Bsc. (Hons) Computing & Information Systems

07/2021 – 04/2026

Sabaragamuwa University of Sri Lanka

G.C.E. A/L Examination - Physical Science Stream

2019

Mo/Rajyananda Central College

PROJECTS

Redesign of "GoodrReads" Mobile Application (Individual) 🔗

2025

Figma

Conducted a UX case study of the Goodreads mobile application involving heuristic evaluation, competitive benchmarking, and usability analysis. Redesigned key user journeys and interfaces to improve navigation, information architecture, and user engagement. Created user flows, wireframes, interactive prototypes, and high-fidelity UI screens in Figma.

UI Design for "MediCare" Mobile Application (Individual) 🔗

2026

Figma (Ongoing Project)

Designed a healthcare mobile application for private hospital services, including doctor profiles, channeling schedules, online consultations, pharmacy access, and user account management. Focused on creating an intuitive user experience for healthcare service access.

- Smart Governing Portal (Group)

2024

Figma | Flutter | Firebase

Contributed to the UI/ UX design of the Smart Governing Portal, a centralized citizen-government interaction platform. Designed the full user interface using Figma and supported project management activities within the team.
- UI Design for Company HR Management Portal (Individual)

2025

Figma

A clean and intuitive HR management web portal with modules for employee management, payroll, leave tracking, and dashboards. Designed based on user research and UX analysis to improve workflow efficiency, usability, and clear data visualization for HR operations.
- UI Design for "Mr.Barber" Barbershop Website (Individual)

2024

Figma

Designed a user-centered barbershop website to streamline appointment booking and service scheduling. Focused on improving user experience through intuitive booking flows, easy staff availability management, and efficient interaction for both customers and staff.
- Ganesh Hotel System Website (Group)

2025

Figma | MERN Stack | MongoDB

Designed a clean, minimalist, and modern user interface for an all-in-one hotel management system. Contributed as the UI/UX designer across the entire platform, focusing on usability, user flow, and consistency. The system integrates multiple modules including hotel management, POS & inventory, inquiry handling, restaurant operations, and an AI-powered business intelligence dashboard.
- "CreamBar" Ice Cream Shop Website (Group)

2024

HTML | CSS | JavaScript | PHP | Mysql

Developed an online order management system for an ice cream shop with customer ordering features and an admin panel for managing products and user accounts. Contributed to frontend and backend development, focusing on creating a smooth user flow and efficient system interaction.
- "BurgerHut" Web project

2023

HTML | CSS

Designed and developed a responsive online food ordering website for fast foods (burgers, pizzas, desserts), enabling users to browse menu items and place orders easily. Implemented clean UI with simple CSS animations to enhance user experience and visual engagement.

TECHNICAL SKILLS

Tools Figma Adobe XD Adobe Photoshop Github Trello Jira	UX Skills Wireframing Prototyping User Flows Usability Testing User Research
Frontend Knowledge HTML CSS JavaScript React JS Tailwind CSS	Databases MySQL MongoDB

SOFT SKILLS

Communication Skills | Creative Thinking | Adaptability | Team Collaboration | Positive Thinking |Time Management & Responsibility | Cross-functional collaboration | Problem-solving

CERTIFICATES

- Responsive Web Design Developer Certification: freeCodecamp
- Introduction to Cybersecurity: Cisco Networking Academy
- Certification of Computer Literacy - Level 02: Open University of Sri Lanka
